Coax Cable  
UTP Cable  
Coaxial Connector

# Chief Executive Officer

Greetings from Hwang Byung-Sun, CEO of ES-TECH international.

Amid the fast pace change in the management business environment, ES-TECH International is embarking on a new journey toward sustainable growth for creation of the customer values.

Through active communication, ES-TECH International is creating an open and creative corporate culture.

Reaching consensus among the key stakeholders, including our employees, customers, shareholders and contractors, and reflecting such voices in our corporate policies, we are making efforts to further enhance our credibility.

We are contemplating our previously customary methods of conducting work from new perspectives, with quantitative Real Time Management indicators to improve synergies, while securing the technologies that set us apart to ensure world-class quality and enhancing productivity as well.

ES-TECH International has implemented a system of appreciative management, through which a culture of trust, communication and positive attitudes is taking root.

Persons who are appreciative and thankful on a daily basis, they say, are much more creative and able to overcome hardship than people who are not. The employees of ES-TECH International will, through appreciation and voluntary service, uphold a positive mindset and further improve their performance.

We ask for your unwavering support and warm interest in the bold strides ES-TECH International is now taking to progress further improving creating much more happiness and satisfaction of all our stakeholders.

Thank you.

# Company History

Headquarters

Factory Line

Factory Line

Uiwang Factory
